Construction Branch*

Interior Demolition
6841 Foothill Blvd.
Tujunga, CA

ATTN: George Molina, Owner

This letter acknowledges the outstanding work that your company has performed while doing demolition contract work for the Los Angeles Unified School District.

Whether as a Contractor or Sub-Contractor, your company has displayed the ability to perform successfully any job whether large or small. Your expertise in handling these tasks and the timely manner in which they are completed is greatly appreciated by the District especially when emergencies require such. It has also been pleasurable to acknowledge your business attitude even when the bids did not go your way.

It is with this workman like attitude that the Los Angeles Unified School District highly recommend your services for any future District or outside agency demolition projects.

Thank you for your dedication to the District.

Michael Chang
School Facilities Planner
Project Management and Construction Branch
